

AI-Powered Lead Generation System

Internship Project

Submitted By

Madhu Sri

Platform

Salesforce Developer Edition

Technology

Salesforce Lightning

Year

2026

1. Introduction

The AI-Powered Lead Generation System is developed using Salesforce Lightning Platform.

This project automates lead management by using Validation Rules, Formula Fields, Record Triggered Flows, Approval Process, Reports and Dashboards.

The system reduces manual work and improves lead qualification.

2. Objectives

- **Automate Lead Qualification**
- **Improve Lead Management**
- **Validate Lead Data**
- **Generate Reports**
- **Create Dashboards**
- **Reduce Manual Work**
- **Improve Business Automation**

3. Tools Used

Tool	Purpose
Salesforce	CRM Platform
Flow Builder	Automation
Approval Process	Approval
Reports	Reporting
Dashboard	Visualization
Github	Project Repository

4. Project Modules

1. Custom Object
2. Custom Fields
3. Validation Rule
4. Formula Field
5. Record Triggered Flow
6. Approval Process
7. Reports
8. Dashboard

5. Workflow

6. Project Screenshots

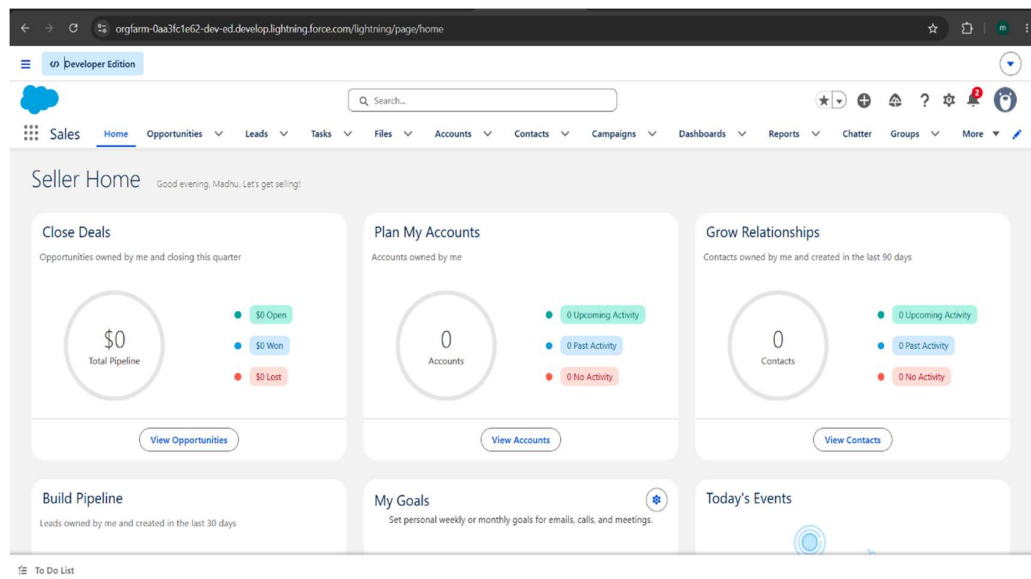

Figure 1 :Home

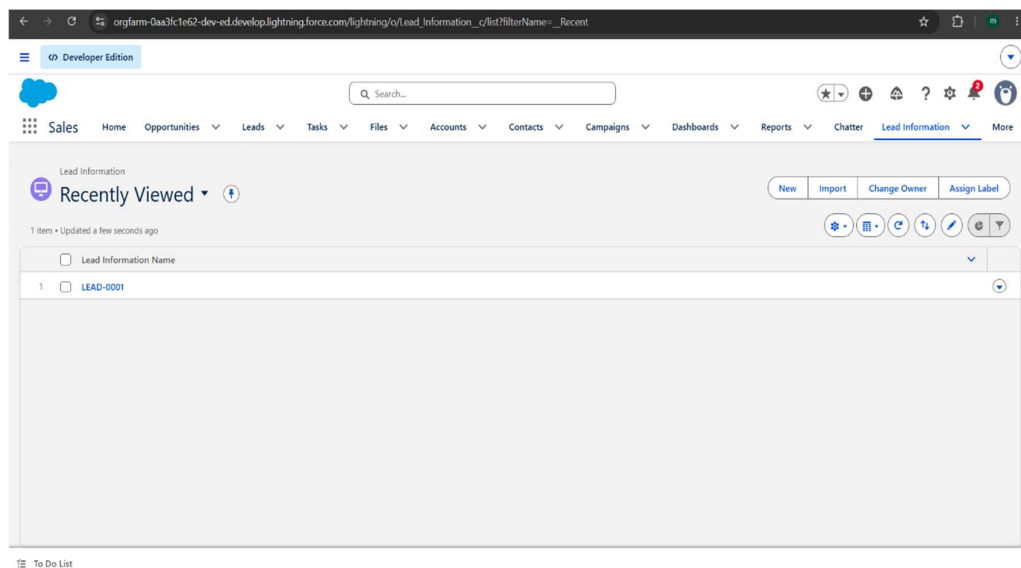

Figure 2 :LeadInformation

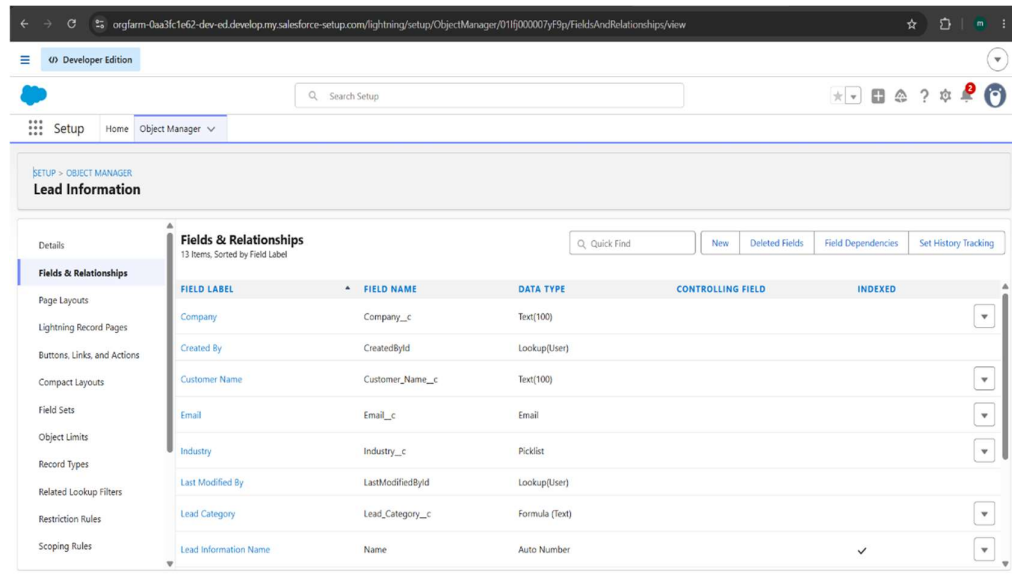

Figure 3 : Fields

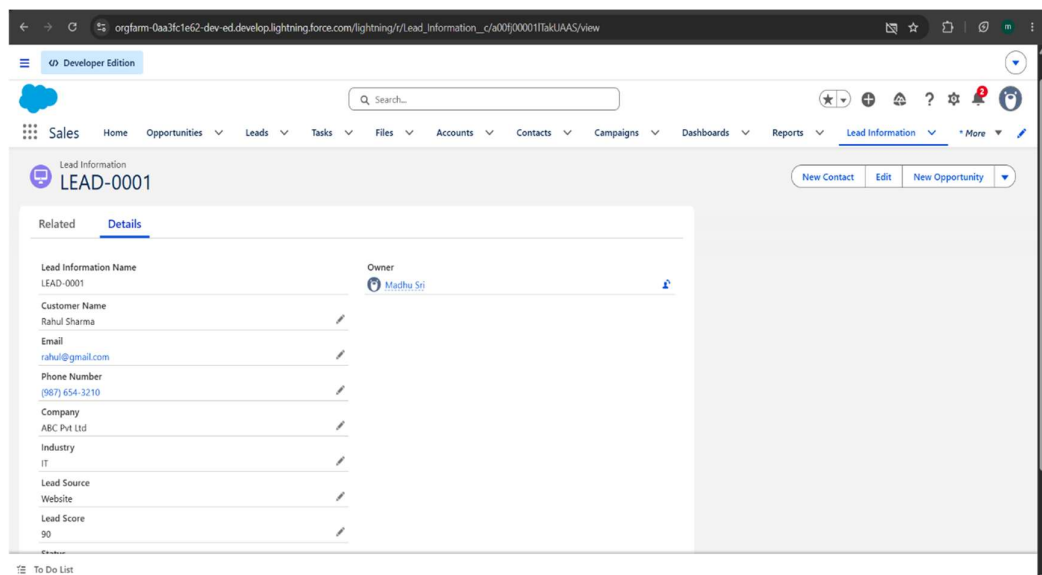

Figure 4 : LeadRecord

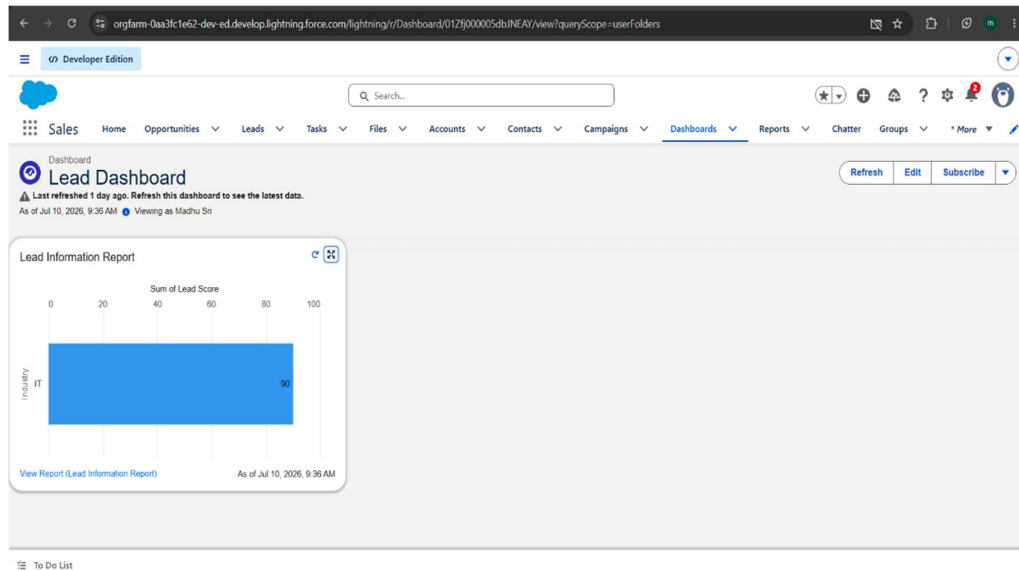

Figure 5 : Dashboard

The screenshot shows the Salesforce Setup page for Approval Processes. The left sidebar contains navigation links for "Data", "Feature Settings", "Process Automation", and "Approval Processes". The main content area displays the "Lead Information: Lead Approval Process" details. The process is active and managed by the "Manager of Record Owner". The entry criteria is "Lead Information: Lead Score GREATER OR EQUAL 80". The record editability is set to "Administrative ONLY". The approval assignment email template is "LeadApprovalEmail". The initial submission actions include "Record Lock" and "Field Update".

Process Name	Lead Approval Process	Active	✓
Unique Name	Lead_Approval_Process	Next Automated Approver Determined By	Manager of Record Owner
Description			
Entry Criteria	Lead Information: Lead Score GREATER OR EQUAL 80		
Record Editability	Administrative ONLY	Allow Submitters to Recall Approval Requests	☐
Approval Assignment Email Template	LeadApprovalEmail		
Initial Submitters	Lead Information Owner

Action	Type	Description
Record Lock		Lock the record from being edited
Field Update		Pending Status

Figure 6 : ApprovalProces

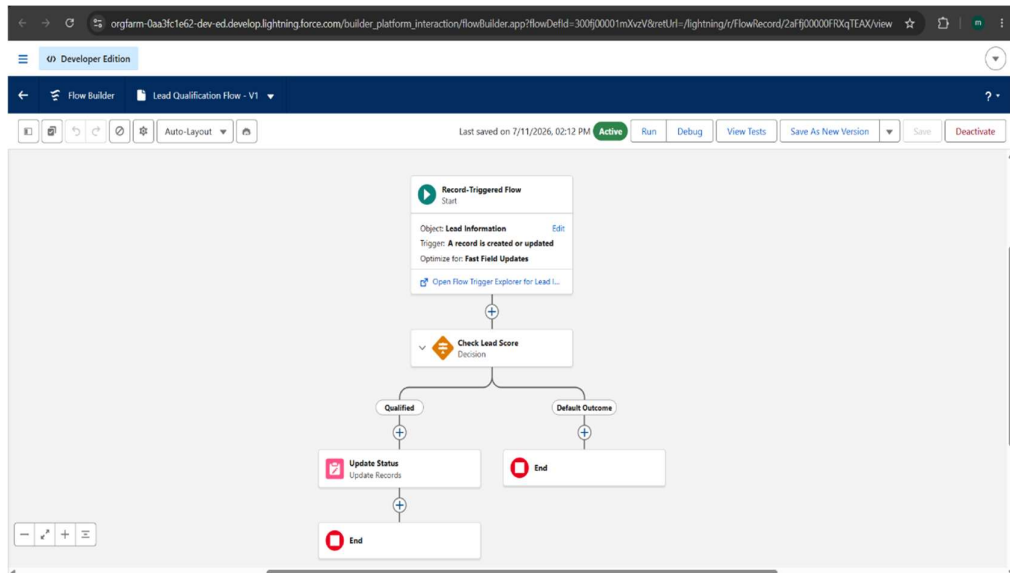

Figure 7 : Flow

The screenshot shows the Salesforce Setup page for the 'Lead Information' custom field. The field is named 'Lead Category' and is a text field. The 'Custom Field Definition Detail' section shows the field information, including the field label, field name, API name, description, help text, data owner, field usage, data sensitivity level, and compliance categorization. The 'Formula Options' section shows a formula: IF(Lead_Score <= 80, 'Hot Lead', 'Cold Lead').

Field Information	Field Label	Lead Category	Object Name	Lead Information
Field Name	Lead_Category			
API Name	Lead_Category__c			
Description				
Help Text				
Data Owner				
Field Usage				
Data Sensitivity Level				
Compliance Categorization				
Created By	Madhu Sai	7/10/2026, 9:48 AM	Modified By	Madhu Sai 7/10/2026, 9:48 AM

Formula Options	Data Type	Formula
IF(Lead_Score <= 80, 'Hot Lead', 'Cold Lead')

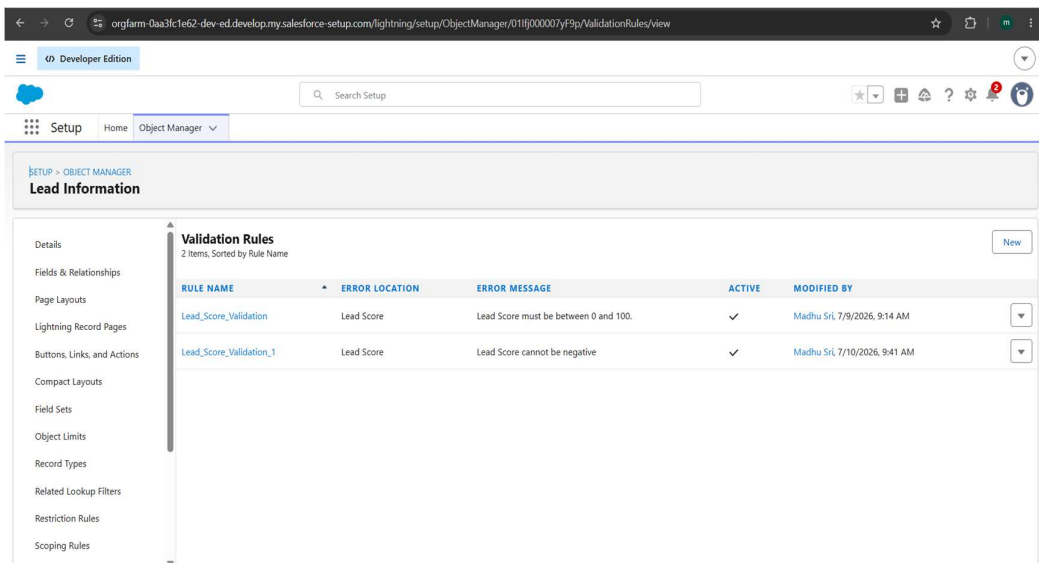

Figure 10 :ValidationRule

7. Conclusion

The AI-Powered Lead Generation System successfully automates lead qualification using Salesforce Lightning.

The project demonstrates Validation Rules, Formula Fields, Record Triggered Flow, Approval Process, Reports and Dashboards.
